I am citizen of Republic Serbia, married and have two child, Iva (2006) and Mia (2009).

I have finished elementary and secondary (electro-technical) school in Sombor. After I attended the *Faculty of Technical Science* in University of Novi Sad. I was student of Electro-technical section specialized for electronic and telecommunications, graduated on subject *FIRE fuzzy filters in digital image processing*. Upon graduation, I went on postgraduate studies, and I have worked as a research assistant on same faculty where I further extended my knowledge in IT and telecommunications.

My English is fluent, I know English well enough to have no problem reading and understanding any reading-matter that is wrote on English, and I'm having no problem with establishing communication on English.

My computer skills are very well; beside excellent familiarity with *Windows* operation system I have great experience on *Linux (Red Hat, Fedora, Suse, CentOS, Ubuntu and Mandrake platforms), APOXI, Symbian OS and Android*. I have often did installation, configure and maintenance of the different dedicated servers, web servers(Apache, IIS, Squid proxy, ISA server), mail servers, authentication servers(LDAP), version control (CVS) and bug tracking servers (Bugzilla, Redmine), and different kind of services as needed (NFS, AutoFs,Samba,MySQL,Postgres). But main skill is software development. During my education I have worked on many projects, such as: *Digital image processing* (filters for corrupted image, image edge detectors), *Digital signal processing* (Sampling rate conversion-Multirate, and Filter projecting-*Ad Hoc* method) etc, after I was involved in more commercial an larger projects such as: Paragraf, mBid, Jblend etc. Mostly I was programming in Java (J2SE,J2EE and J2ME), C/C++, and Matlab (for some early projects).

03.2003. - 09.2003. I have worked as a sales engineer. My job included customers technical support for PLC (*Siemens Simatic and Logo*) and low-voltage equipment.

09.2003. - 03.2004. On Faculty of Technical Science I was a member of innovation team on UMTS project. My job included *HTTP protocol* design and implementation for *IMS (IP Multimedia Subsystem) project*. Implementation is done in embedded C++, project is successfully finished after 6 months. [▶▶ MORE](#)

03.2004. - 09.2004. On *PoC (Push-to-talk over Cellular) project* for next 6 months. I was lead responsible for designing and implementing *RTP and RTCP protocols (Real-Time Protocol and Real-time Control Protocol)*. These protocols are also implemented in embedded C++. [▶▶ MORE](#)

09.2004. - 06.2005. I have served military service for 9 month.

06.2005. - 12.2005 I come back to the faculty to continue my studying and working. During this period I have worked as a external member in *Zesium mobile d.o.o* Novi Sad on project *mBid24*. I was lead responsible for mBid24 Server (Web interface and web services SOAP) design and implementation. Project is done in Java, and it is successfully finished after 5 moths. [▶▶ MORE](#)

01.2006. - 11.2006 *Java VM (JBlend) porting* on Infeion platform is done also by *Zesium mobile d.o.o* as part of *BenQ Diamond* project. I was lead responsible for Smoke and TCK testing as *Test manager*. My job also included testing and re-implementation of Low Level Graphic (JSR 118 MIDP), on-board target debugging and tracing. [▶▶ MORE](#)

12.2006. - 04.2007 *Framework for mobile and embedded devices (FMED) project* is developed by *Zesium mobile d.o.o* intended to be a glue layer for protocol based applications on embedded devices. I participated in software architecture and design, also I have been involved in porting on Symbian platform. First phase of the project has been finished, project development has continued with development of Protocol Layer.

05.2007. - 10.2008 *ParagrafLex application system* is done by *Zesium mobile d.o.o* as an outsource project for *Paragraf Lex d.o.o*. This application system consists of 8 different applications. I was *project manager* and software architect, project team has consisted of 6-8 engineers. Project has been successfully finished after 17 months

11.2008. - I have started my own company called *Lexus agency*. Main customers are EIntelligence d.o.o. Belgrade, Paragraf Lex d.o.o. Novi Sad and Paragraf Co d.o.o. Belgrade. I was chief of development responsible for all software development projects for these customers.

- **Agency activities in 2009** Main customers are Paragraf Lex d.o.o. Novi Sad
- **Agency activities in 2010** My team consist of 3 full-time and 3 part-time engineers. This year will be remembered for development Paragraf Lex system (5 versions), and for kick start of the web application which should be included in application system as well. In total, this year we have successfully pushed 39 version/applications, we have two new projects (Web law database and Single USB).
 - Desktop law database - in 2010 we have pushed five commercial applications (v11.0 , v11.5 , v12.0 , v12.1 and v12.2)
 - Single - (v11.0 , v11.5 , v12.0 , v12.1 and v12.2)
 - Single Correcture - (v11.0 , v11.5 , v12.0 , v12.1 and v12.2)
 - Single Demo - (v11.0 , v11.5 , v12.0 , v12.1 and v12.2)
 - Single USB - (v12.2)
 - Dispatcher Server - (v11.0 , v11.5 , v12.0 , v12.1 and v12.2)
 - Dispatcher Client - (v11.0 , v11.5 , v12.0 , v12.1 and v12.2)
 - Classic Server - (v11.0 , v11.5 , v12.0 , v12.1 and v12.2)
 - Classic Client - (v11.0 , v11.5 , v12.0 , v12.1 and v12.2)
 - Web law database - in 2010 we have pushed two milestone build (v0.1 and v0.2)

- Commercial version - (v0.1 and v0.2)
 - Commercial version updater - Web Content Admin - (v0.1)
- Law database editor - in 2010 we have pushed five commercial applications (v11.0 , v11.5 , v12.0 , v12.1 and v12.2)
- **Agency activities in 2011** My team consist of 3 engineers, I was chief of development responsible for all projects. Major activities are on Demo web version, law planner and 3 new versions of the ParagrafLex application system. In total, this year we have successfully pushed 59 version/applications, we have one new huge project (Lawyer planner).
 - Desktop law database - in 2011 we have pushed three commercial (v14.0, v14.1, v14.2 i v14.3) and two intermediate/internal application versions (v13.0i/v12.3 and v13.1i/v12.4)
 - Single - (v12.3i, v12.4i, v14.0, v14.1, v14.2 i v14.3)
 - Single Correcture - (v12.3i, v12.4i, v14.0, v14.1, v14.2 i v14.3)
 - Single Demo - (v12.3i, v12.4i, v14.0, v14.1, v14.2 i v14.3)
 - Dispatcher Server - (v12.3i, v12.4i, v14.0, v14.1, v14.2 i v14.3)
 - Dispatcher Client - (v12.3i, v12.4i, v14.0, v14.1, v14.2 i v14.3)
 - Classic Server - (v12.3i, v12.4i, v14.0, v14.1, v14.2 i v14.3)
 - Classic Client - (v12.3i, v12.4i, v14.0, v14.1, v14.2 i v14.3)
 - Web law database - in 2011 we have pushed three commercial (v14.0, v14.1, v14.2 i v14.3) and two intermediate/internal application versions (v13.0i/v12.3 and v13.1i/v12.4)
 - Commercial version - (v12.3i, v12.4i, v14.0, v14.1, v14.2 i v14.3)
 - Commercial version updater - Web Content Admin - (v12.3i, v12.4i, v14.0, v14.1, v14.2 i v14.3)
 - Demo version - (v0.1)
 - Demo version updater - Web Content Admin - (v0.1)
 - Law database editor - in 2011 we have pushed two commercial (v14.0, v14.1, v14.2 i v14.3)
 - Paragraf ORG - in 2011 we have pushed eleven release versions (0.1, 0.2, 0.3, 0.4, 0.5, 1.0, 1.1, 1.2, 1.3, 1.9 and 2.0)
- **Agency activities in 2012** My team consist of 3 full-time engineers. Activities highlights are Demo web version, Paragraf ORG application and 3 new versions of the ParagrafLex application system. In total, this year we have successfully pushed 53 version/applications, this year we have started, finished and integrated Demo web version in Paragraf Lex application system.
 - Desktop law database - in 2012 we have pushed three commercial (v14.4, v14.4.1 i v14.5)
 - Single - (14.4, 14.4.1 i 14.5)
 - Single Correcture - (14.4, 14.4.1 i 14.5)
 - Single Demo - (14.4, 14.4.1 i 14.5)
 - Dispatcher Server - (14.4, 14.4.1 i 14.5)
 - Dispatcher Client - (14.4, 14.4.1 i 14.5)
 - Classic Server - (14.4, 14.4.1 i 14.5)
 - Classic Client - (14.4, 14.4.1 i 14.5)
 - Web law database - in 2012 we have pushed first commercial release v14.5 and seven intermediate/internal application versions (v14.4.0,v14.4.1,v14.4.2,v14.4.3,v14.4.4,v14.4.5 and v14.4.6)
 - Commercial version - (v14.4.0,v14.4.1,v14.4.2,v14.4.3,v14.4.4,v14.4.5, v14.4.6 and v14.5)
 - Commercial version updater - Web Content Admin - (v14.4.0,v14.4.1,v14.4.2,v14.4.3,v14.4.4,v14.4.5, v14.4.6 and v14.5)
 - Demo version - (v14.4.5 and v14.5)
 - Demo version updater - Web Content Admin - (v14.4.5 and v14.5)
 - Law database editor - in 2012 we have pushed two commercial (v14.4, v14.4.1 i v14.5)
 - Paragraf ORG - in 2012 we have pushed eleven release versions (2.1, 2.2, 2.3, 2.4, 2.5, 2.5.1, 2.5.2, 2.6, 2.6.1., 2.7 and 2.8)
- **Agency activities in 2013** My team consist of 3 engineers. Major activities are on Demo web version, law planner and 3 new versions of the ParagrafLex application system. In total, this year we have successfully pushed 59 version/applications, we have one new huge project (Lawyer planner).
 - Desktop law database - in 2013 we have pushed two commercial (v14.5 and v16.0) and one intermediate/internal application versions (v15.0i)
 - Single - (v14.5, v15.0i and v16.0)
 - Single Correcture - (v14.5, v15.0i and v16.0)
 - Single Demo - (v14.5, v15.0i and v16.0)
 - Dispatcher Server - (v14.5, v15.0i and v16.0)
 - Dispatcher Client - (v14.5, v15.0i and v16.0)
 - Classic Server - (v14.5, v15.0i and v16.0)
 - Classic Client - (v14.5, v15.0i and v16.0)
 - Web law database - in 2013 we have pushed four commercial (v14.5.4.1, v14.5.5.0, v14.5.6.0 and v16.0) and two intermediate/internal application versions (v15.0i and v15.1i)
 - Commercial version - (v14.5.4.1, v14.5.5.0, v14.5.6.0, v15.0i, v15.1i and v16.0)
 - Commercial version updater - Web Content Admin - (v14.5.4.1, v14.5.5.0, v14.5.6.0, v15.0i, v15.1i and v16.0)
 - Demo version - (v14.5.4.1, v14.5.5.0, v14.5.6.0, v15.0i, v15.1i and v16.0)
 - Demo version updater - Web Content Admin - (v14.5.4.1, v14.5.5.0, v14.5.6.0, v15.0i, v15.1i and v16.0)
 - Mobile law database (Android) - in 2013 we have pushed 2 commercial versions (v1.1 and v1.2.2) and two intermediate/internal application versions (v1.2.1i and v1.2.1.2i)
 - Android client application
 - Web services
 - Law database editor - in 2013 we have pushed two commercial (v14.4 and v16.0)
 - Lawyer planner - in 2013 we have pushed two commercial versions (v0.1 and v0.2)
 - Paragraf ORG - in 2013 we have pushed two release versions (v2.9, v2.9.1, v2.9.2 and v3.0)
 - Paragraf payment - in 2013 we have pushed two commercial versions (v0.1 and v0.2)

- **Agency activities in 2014** My team consist of 6 full-time engineers. Most work has been done on Project X, Android mobile client and one large update of the Paragraf Lex Application system. Most important activities this year was customizing and integrating Montenegro Paragraf Lex, from this year we have went outside of Serbia with plans to be a regional company. In total this year we have successfully pushed 33 version/applications, we have one new huge project (Project X) and one project is put on hold (Lawyer planner).
 - Desktop law database - in 2014 we have pushed one large commercial version (v16.5)
 - Single - (v16.5)
 - Single Correcture - (v16.5)
 - Single Demo - (v16.5)
 - Dispatcher Server - (v16.5)
 - Dispatcher Client - (v16.5)
 - Classic Server - (v16.5)
 - Classic Client - (v16.5)
 - Web law database - in 2014 we have pushed one large commercial version (v16.5)
 - Commercial version - (v16.5)
 - Commercial version updater - Web Content Admin - (v16.5)
 - Demo version - (v16.5)
 - Demo version updater - Web Content Admin - (v16.5)
 - Desktop law database for Montenegro - in 2014 we have pushed one large commercial version (v16.5)
 - Classic Server - (v16.5)
 - Classic Client Correcture- (v16.5)
 - Web law database for Montenegro - in 2014 we have pushed one large commercial version (v16.5)
 - Commercial version - (v16.5)
 - Commercial version updater - Web Content Admin - (v16.5)
 - Mobile law database (Android) - in 2014 we have pushed two commercial version (v2.0 and v3.0)
 - Android client application
 - Web services
 - Mobile law database for Montenegro (Android) - in 2014 we have pushed one large commercial version (v4.0)
 - Android client application
 - Web services
 - Law database editor - in 2014 we have pushed one large commercial version (v16.5)
 - Lawyer planner - in 2014 we have pushed one commercial versions (v0.3) - Project is put ON HOLD on this stage
 - Paragraf ORG - in 2014 we have pushed nine release versions (v3.0 , v3.0.1, v3.0.2, v3.0.3, v3.0.4, v3.0.5, v3.0.6, v3.1, v3.1.1)
 - Paragraf payment - in 2014 we have pushed commercial versions (v0.3)
 - Paragraf slip management - in 2014 we have pushed internal application version (v0.1)
 - Paragraf project X - in 2014 we pushed one large version v0.1

My additional skills: Java (ME, SE and EE), C/C++, Assembler, HTML, JavaScript, PHP, PL/SQL, XML

In Novi Sad,
November 2014

Sincerely,
Igor Galic, MSc
